The Providence Mandolin Orchestra, based in Rhode Island, is recognized as one of the leading plucked string ensembles performing in the US today. They are known for the beauty of their sound and their expressive interpretations. The full mandolin family (mandolin, mandola, mandocello, mandobass) is represented as well as classical guitar, accordion, and recorder. The group has toured in Spain and recently released an acclaimed CD recording 'Songs Without Words.' Tonight's program includes Baroque and modern music, works written for the PMO, and Brazilian and Spanish pieces.
