

## Contemporary Works for Mandolin and Guitar Ensemble: The Repertoire of the Providence Mandolin Orchestra

**Date: June 29, 2023**

By Mark M. Davis and Robert A. Margo

Under the direction of Mark Davis, the Providence Mandolin Orchestra is committed to performing contemporary music for mandolin ensemble – new pieces written for the group and those written for other ensembles. We provide complete listings of both types of works performed by the PMO from 1978 to the present. By making this list available other ensembles will learn of works that may be considered for their performances. We also hope to prompt directors of other mandolin ensembles to compile similar lists, which then could be shared among ensembles. All information is updated regularly and is current as of the date listed above.

Following are new works composed for and given their world premieres by the PMO. The year of first performance is shown in parentheses, and a contact address for information about scores and parts is given. A “\*” indicates that the work has been recorded by the PMO; a “^” indicates there is a video (by the PMO or another group) on [www.youtube.com](http://www.youtube.com).
